Village Brush Pickup

The Village will collect limbs and sticks that are not tied in bundles, provided they are less than six feet in length. Only limbs and sticks resulting from natural causes such as storm, wind, and ice or from pruning will be collected. ***Absolutely no limbs, sticks, or other debris will be collected from the cutting down of trees and shrubs or of landscaping.*** Limbs and sticks should **NOT** be placed on the street.

When: While access to the compost area is closed the Utility Department will be checking every Monday for brush as a result of residents doing spring cleanup around their properties. **Once we reopen the compost area we will return to the third Monday of every month pick up.**

Thank you,

Larry Weirich
